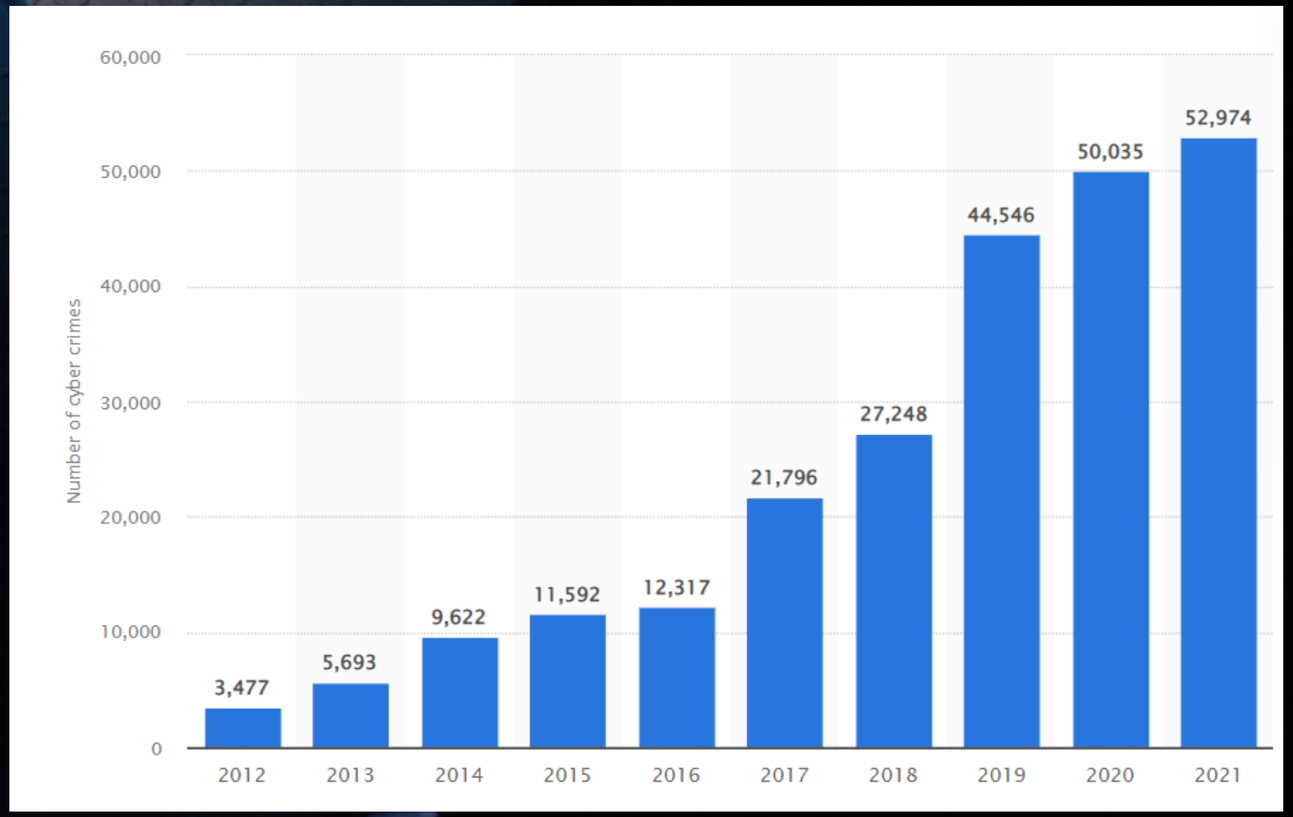
RELEVANCE OF CYBER LAW

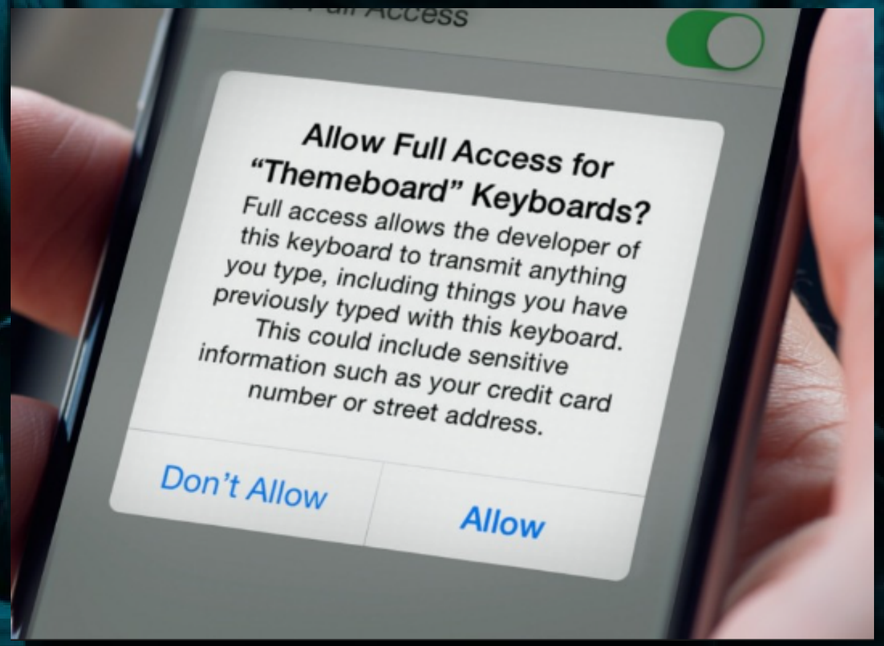


*cyber crimes from 2012-21

Some reasons for increase in cyber crimes

1) Increase in online traffic
2) Lack of awareness among people

It protects the personal information of the user – One of the most important factors in the digital world is to keep your personal information secret. It is very essential for the customer that they are quite capable of selling the information.



It protects productivity – There are many viruses present which can slow down your personal computer. It may often bring your personal business to a standstill.

- **IT KEEPS EYE ON ALL ACTIVITIES OVER THE INTERNET.**

- when group of persons / individual tries to defame a person by saying things which are not true, these kind of activities have to be noticed and strict action has to be taken.

- **RESTRICTION ON SELL OF ILLEGAL ARTICLES ON INTERNET**

- For example, selling books of which copy right is owned by somebody else.
